

Corporate Quality Policy

The Takasago Group is committed to supplying safe and reliable products that meet current industry and regulatory requirements, with our customers' quality and safety standards in mind.

We will assure this by:

1. Compliance with all legal and regulatory requirements
2. Continuously improving our Quality Management Systems and procedures to ensure the consistent provision of safe and reliable products that our customers can rely on
3. Ensuring robust quality assurance systems and verification processes throughout raw material control and manufacturing operations
4. Ensuring the continuous enhancement of the independence, integrity, and reliability of the Quality Assurance Organization
